Key Financial Highlights

Revenue declined in USD terms due to a 55% depreciation of MMK.

Revenue in MMK terms grew by over 35% Y-o-Y¹ driven by:

- Yoma Land Development (+81.2%)
- Yoma F&B (+44.8%)
- Yoma Land Services (+35.2%)

Lower Core EBITDA broadly due to the impact of MMK depreciation.

- Core EBITDA margin saw a slight 1.2% decline due to the shift in revenue mix with a lower contribution from Wave Money.

Loss before tax was primarily impacted by US\$7.3 million of currency translation losses on THB and USD borrowings.

Yoma Land and Wave Money are expected to continue to be the Group's key growth drivers:

- Continued focus on the construction and delivery of its real estate projects.
- Expanding Wave Money's user base through improved product offerings and reach.

¹Where relevant, the changes in revenue in MMK terms would be shown for each business segment.

Balance Sheet

as at 30 September 2024

Total borrowings reduced from US\$197.2 million as of 30-Sept2023 to US\$164.3 million as of 30-Sept2024.

The increase in net debt and net gearing levels was mainly driven by a reduction in cash balances:

- Working capital payments to complete Estella on time. 1st phase has been completed and handover will commence in November 2024.
- Wave Money’s investment in its core infrastructure and digital transformation projects.
- Capital expenditures at StarCity to cater to the growing resident population.

The Group is committed to reduce its USD-denominated borrowings and increase the proportion of MMK-denominated loans to better align with its cash inflows.
